

# INDEX TO SIGNAL

Volume 52 September 1997 Through August 1998

## TITLE

Sorted by topic, each listing below includes index number, title, month of publication and page number.

### Aeronautical Engineering

1. Digital Data Processors Link  
Aircraft Engines, Diagnostics .....Oct. p. 63
2. Avionics Efforts Focus on  
Advances, Retrofits .....Oct. p. 66
3. Aircraft Control Becomes a Meeting  
of Electronic Minds .....Oct. p. 67
4. Integrated Avionics System  
Eases F-22 Pilot's Workload .....Nov. p. 45

### Aerospace

5. New Crew Return Vehicle Offers  
Enhanced Safety for Space Station .....Aug. p. 73

### Analysis

6. Information War Techniques  
Supersede Kinetic Weapons .....May p. 33

### Antennas

7. Designers Embed, Consolidate  
Antennas to Ease Proliferation .....April p. 32
8. Enhanced Linking Capabilities  
Meet Multiple Military Demands .....April p. 37

### Avionics

9. Precision Navigation Sensors  
Increase Helicopter Survival .....Sept. p. 47
10. Aviation Mission Planning  
Automates Pilot Functions .....Sept. p. 51
11. Air Force Global Engagement Strategy  
Spurs Avionics Focus .....Sept. p. 55

### Business

12. Customer Base Broadens  
From Missiles to Medicare .....Oct. p. 53
13. Defense Marketplace Changes Cause  
Companies to Re-evaluate, Revamp .....Dec. p. 59
14. Software Tools Reveal Patterns  
in Volumes of Vital Information .....Jan. p. 51
15. An Amalgam of Capabilities Marks  
New Simulation Center .....Feb. p. 35
16. Virtual Networks Support  
Critical Logistics Mission .....Feb. p. 38
17. Satellite Evolution Leads to  
More Bandwidth, Capabilities .....Mar. p. 57
18. Project Evaluation Tool  
Gives Managers an Edge .....Mar. p. 60
19. Expeditious, Cooperative Transition  
Impacts Corporate Merger Success .....May p. 71
20. Slow Defense Contract Growth  
Alters Lucrative Core Business .....May p. 79
21. Changing Acquisition Tactics  
Stimulate Marketing Strategy .....May p. 85
22. Dynamic Executive Centers  
Bolster Corporate Revenue .....May p. 89

23. Unique Government Networks  
Drive Broadband Technologies .....June p. 68
24. Wireless Connectivity Enters  
New Realm for Remote Users .....July p. 59

### Canada's Information Mavens

25. Canada Integrates Strategies, Initiates  
Comprehensive Plans .....Mar. p. 49
26. Biometrics Eclipse Passwords to Ensure  
Confidentiality, Privacy .....Mar. p. 53

### Commentary

27. When the Event Winds Down,  
Membership Pride Sustains .....Sept. p. 16
28. Intelligence May Be Bent, But Not Broken .....Oct. p. 14
29. Providing Ethical Forums is  
Core of AFCEA's Existence .....Nov. p. 14
30. All-Seeing Sensors Redefine  
the Concept of Awareness .....Dec. p. 15
31. Global Reach Defines  
AFCEA's Information Technology Role .....Jan. p. 14
32. AFCEA's Core Elements  
Span Boundaries, Locales .....Feb. p. 13
33. Partnership at West Bodes Well for Future .....Mar. p. 14
34. Association's Planning Coincides  
With Seed Corn Research Funds .....April p. 14
35. Embracing Technology Advances,  
AFCEA Transforms Global Event .....May p. 16
36. Committees Provide Leadership,  
Brace and Coordinate Activities .....June p. 14
37. Unsung Heroes Are Key Members  
of AFCEA Chorus .....July p. 13
38. Celebrate Connectivity, but With a Caveat .....Aug. p. 14

### Communications

39. New Tactical Radio Features  
Increased Portability, Speed .....Nov. p. 67
40. Marine Stabilized Antenna System  
Brings Real-Time Television to Sea .....Nov. p. 69
41. Infrared Beam Transports  
Stranded Imagery and Data .....Dec. p. 68
42. Electronic Mail Performance  
Extends to Radio Subscribers .....Jan. p. 43
43. Wireless Technology Transforms  
Tribal Drums Into Dial Tones .....Jan. p. 49
44. Joint Tactical Radio Spurs  
Rapid Technology Insertion .....April p. 67
45. Distributed Training System  
Offers Knowledge at Local Level .....May p. 112
46. Exercise, Acquisition Plans Center  
on Army Satellite Communications .....June p. 47

### Computing

47. Intelligence Community Thirst  
Leads to On-line Database Well .....Sept. p. 59

48. Semiconductor Firm Overcomes Dependence on Memory Chips .....Nov. p. 72
49. Commerce Product Suites Quell Proprietary Vendor Dependence .....Feb. p. 15
50. Federal Government Agencies Take Year 2000 Solution Test .....Feb. p. 18
51. New Semiconductor Transistor Plumbs Depths of Technology .....Feb. p. 19
52. Innovations Propose Marriage of Diamonds, Semiconductors .....Feb. p. 23
53. Shape-Shifting Silicon Device Serves High-Energy Demands .....Feb. p. 27
54. Outside-the-Box Thinking Spurs Air Force Competitive Sourcing .....June p. 20

## Conference Report

55. Military, Industry Partners Grab Information Systems' Brass Ring .....Sept. p. 91
56. Joint Vision Initiates Big Challenge to Acquisition, Integration, Culture .....Oct. p. 71
57. TechNet Europe Examines NATO Changes Jan. p. 303
58. Asia-Pacific Conference Examines Technology's Role in Vast Region .....Feb. p. 73
59. The Race Goes to the Swiftest in Commercial, Military Frays .....Mar. p. 68
60. Federal Information Requirements Hinge on Efficiency Technologies .....April p. 79
61. Global Broadcast Service Satellite Poses Challenge to Information Managers .....May p. 115
62. Information Experts Ponder Future of Global Village .....July p. 63
63. Military, Commercial Sectors Aim to Strengthen Information Links .....Aug. p. 77

## Electronic Warfare

64. Israeli Electronic Warriors Counter Modern Threats .....Nov. p. 61
65. Advanced Digital Receiver Offers Precision Location, Identification .....July p. 41
66. Radar Detection Technology Aids International Aircraft Survivability .....July p. 43
67. Antijamming Satellite Signals Increase Global Tactical Utility .....July p. 45

## Europe

68. Alliance Strengths Hinge on New Defined Roles, Missions .....Sept. p. 19
69. Telecommunication Scientists Transform Photons, Electrons .....Sept. p. 23
70. Power Plays Catch-up to Mobile Electronics Sept. p. 25
71. New Radar Systems Balance Technologies, Roles, Costs .....Sept. p. 30
72. Dividing Lines Blur Among Electronic Warfare Elements .....Sept. p. 32
73. Swedish Beam Experts Spotlight Land, Air Objects Through Clutter .....Sept. p. 35
74. Airborne Radar Acquires New Platform, Enhanced Command, Control Capability ..Sept. p. 37
75. Italian Technologists Eye Battlespace Surveillance .....Sept. p. 39

## Geospatial Information Systems

76. Geospatial Information Market Poised for Geometric Growth .....Aug. p. 40

77. Unmanned Aerial Vehicles Cruise Remote Sensing Platform Arena .....Aug. p. 43
78. New Display Advances Brighten Situational Awareness Picture .....Aug. p. 45

## Government

79. Web Chat Room Format Buys Critical Reform Policy Review .....Nov. p. 75
80. Information Advances Transport End-to-End Weather Sensor Data .....Dec. p. 63
81. Government's Gateway Grants Global Communications Access .....May p. 65
82. Millennium Quandary Demands Precise Planning, Communication .....Aug. p. 35

## Information Operations

83. Electronic Warriors Face Rapid Digitization Gap .....July p. 14
84. Software Enables Advances in Electronic Warfare, Simulation .....July p. 16
85. Justice Department Readies Infrastructure Defense Plans .....July p. 17
86. National Vulnerability Intensifies as Infrastructure Reliance Grows .....July p. 20
87. Information Superiority Drives Pentagon Policy and Guidance .....July p. 23
88. Information Operations Center Provides Attack-Thwarting Tools .....July p. 26
89. U.S. Seeks Alliance Support for Infrastructure Protection .....July p. 29
90. External Network Threats to Decline as Insiders Pose More Difficult Issues .....July p. 32

## Information Technologies at Sea

91. Technology Initiative Promises Improved Fleet Performance .....Dec. p. 45
92. Maritime Surveillance Radar Detects, Tracks Sea Targets .....Dec. p. 49

## Intelligence

93. Security Agency Finds Virtual Friends and Foes Collocated .....Oct. p. 17
94. Military Intelligence Expands Collection and Analysis Focus .....Oct. p. 22
95. Legislators Spur Virtual Intelligence Environment .....Oct. p. 27
96. Defense Intelligence Agency Spawns Distributed Security .....Oct. p. 31
97. International Agreement Lightens Government Security Testing Load .....Mar. p. 45
98. Unmanned Aerial Vehicles Help Block, Evade Military Assaults .....April p. 43
99. Private Sector Technology Moves Data Warehousing to Government .....May p. 37

## International

100. British Radios Tune In To Portability, Versatility .....Oct. p. 57
101. Computer Artistry Enhances Aerial Intelligence Imagery .....Oct. p. 59
102. Hovering Decoys Protect Vessels Against Diverse Antiship Missiles .....Nov. p. 57
103. Atlantic Agency's Consolidation Speeds Electronics Deployment .....Jan. p. 33

104. Directory Products' Capacities  
Grow From Object Technology .....Feb. p. 45
105. Countries Seek Consensus on  
Satellite Constellations .....Mar. p. 41
106. Atlantic Alliance Efforts Provide  
Common Combat Identification .....May p. 43
107. British Defense Communications  
Migrates to Commercial Network .....May p. 49
108. Europe Seeks Overarching  
View of Information War .....July p. 33
109. Tenacious Security Vigilance  
Disarms Technology Terrorists .....July p. 37
110. Navy Explores European Offerings  
of Airspace Datalink Technologies .....Aug. p. 69

## Internet Technology

111. Technology Advances Challenge  
Fundamental Internet Concepts .....Jan. p. 16
112. Internet Protocol Telephony  
Worldwide Volcano Explodes .....Jan. p. 21

## Military

113. Science Board Task Force Challenges  
Defensive Information Warfare Status .....Sept. p. 63
114. Congress, Industry Debate  
Proposed Encryption Laws .....Sept. p. 66
115. Strategic Command Consolidates,  
Improves Communications Assets .....Dec. p. 52
116. Near-Real-Time Sensors Emerge, Find, Fix or  
Track Anything—Moving or Stationary ....Dec. p. 56
117. Warfighter Information Network  
Harnesses Simulation Validation .....Jan. p. 27
118. Taipei Equips With Latest  
Mobile Subscriber Radios .....Feb. p. 41
119. Worldwide Data, Imagery Flow  
From Global Broadcast Service .....April p. 71
120. Defense Department Constructs  
Global Communications Network .....April p. 75
121. Navy Sets Innovative Sails  
in Fleet Battle Experiments .....May p. 102
122. Joint Service Effort Takes on  
Evolving Littoral Challenges .....May p. 108
123. Army Information Experts  
Seek Commercial Solutions .....June p. 41
124. City Slickers Become Targets  
of Future Marine Corps Operations .....July p. 49
125. Deployable Tactical System  
Allows Quick Network Setup .....Aug. p. 65

## Networks

126. Powerful Navy Networks Launch  
New-Age Global Communications .....Oct. p. 37
127. Just One Touch is All it Takes  
to Ensure Network Security .....Oct. p. 41
128. Intelligence Agencies Concoct  
Virtual Collaboration Benefits .....Oct. p. 44
129. Laser-Based Targeting Assures  
Pinpoint Aerial Weapons Strikes .....June p. 15
130. Bandwidth Demands Portend  
Revolutionary Program Taxes .....June p. 25
131. Fleet Battle Experiments Blend  
Naval Technology With Doctrine .....June p. 31
132. Information Dominance Glitters  
Among Commercial Capabilities .....June p. 35

## Pacific Rim

133. U.S. Pacific Forces Serve to  
Guarantee Regional Security .....Nov. p. 49
134. Essential Asia-Pacific Region's  
Security Framework Emerges .....Nov. p. 53

## Science & Technology

135. French Researchers Probe  
Aerospace Systems Limits .....Sept. p. 43
136. Nuclear Warhead Designers  
Aim at Computing Advances .....Oct. p. 49
137. Thermal Pattern Recognition System  
Faces Security Challenges Head On .....Nov. p. 64
138. Sensor Development Races  
Biological Warfare Threat .....Dec. p. 34
139. Terrorists and Rogue Nations  
Threaten Large Casualty Tolls .....Dec. p. 38
140. Decreasing Sensor Size, Capability  
Enhancements Offer New Potential .....Dec. p. 41
141. Scientist Predicts Expanding Networks,  
Future Full of Personal Conveniences .....Jan. p. 39
142. Microscopic Revolution  
Coalesces in Materials .....Feb. p. 31
143. Communications Backbone Testing  
Averts Costly Network Shutdowns .....Mar. p. 63
144. Paging Software Enables  
Multiple Message Sources .....Mar. p. 66
145. Innovative Microelectronics  
Emerge From Federal Research .....April p. 17
146. Organic Compounds Illuminate  
Novel Light-Emitting Diodes .....April p. 23
147. Federal, Corporate Cooperation  
Cultivates Speculative Proposals .....April p. 27
148. Solitary Denizens of the  
Deep Prowl Seabeds Autonomously .....April p. 40
149. Artificial Intelligence Spurs  
Applications Breakthroughs .....May p. 97
150. Radar Flashlight Illuminates  
Humans Hidden Behind Walls .....June p. 89
151. Optical Networks Close in on  
Trillions of Bits Per Second .....July p. 55

## Security

152. Antidote Thwarting Schemes  
Startle Pesky Virus Creators .....Sept. p. 73
153. Silicon Security Designs Drive  
Cryptography Key Size March .....Sept. p. 77
154. Industry, Agencies Integrate  
Network Protection Solutions .....Sept. p. 79
155. Electronic Commerce's Sparkle  
Depends on Herculean Security .....Sept. p. 82
156. Government and Industry Pluck  
Common Security Technologies .....Sept. p. 87
157. Federal Agency Network Solutions  
Require Innovative Encryption Tack .....Sept. p. 89
158. Make-My-Day Server Throws  
Gauntlet to Network Hackers .....May p. 19
159. Government-Industry Gridlock  
Hampers Information Security .....May p. 25
160. Combining Capabilities  
Accommodates End-to-End  
Protection Demands .....Aug. p. 17
161. Programmable Cryptography Emerges  
From Advanced Chip .....Aug. p. 23

2. Virtual Sleuth Sniffs Out  
Network Security Flaws .....Aug. p. 27
163. Automated Security Products  
Become Key Network Tools .....Aug. p. 30

### Sensors

164. Airborne Sensors Signal  
Information Dominance .....Dec. p. 17
165. Just One Shot Is All it Takes  
in Locating Priority Threats .....Dec. p. 21
166. Technologies Improve Radar Ground,  
Foliage Penetration .....Dec. p. 25
167. Army Researchers Press  
Ultra Wideband Envelope .....Dec. p. 29

### Simulation

168. Strategic Satellite Links  
Ride Computer-Based Instruction .....June p. 91

### Small Business

169. Market Intelligence Gathering  
Secures Small Business Success .....June p. 58
170. Virtual Consortium Fosters  
Entrepreneurial Camaraderie .....June p. 65

### Space

171. Orbital Switchboards Impart  
Sensor-to-Shooter Capability .....June p. 51

### Tactical

172. Exercise Demonstrates Benefits  
of Military's Network-Centric Warfare ....Nov. p. 16
173. Coalition Warriors Capitalize on  
Wide Area Network Links .....Nov. p. 24
174. Multinational Task Groups Grasp,  
Master Real-Time Video Planning .....Nov. p. 29
175. Air and Space Become Arena  
of New Command, Control Agency .....Nov. p. 34
176. Full Range of Communications Tools  
Support Forces in Harsh Location .....Nov. p. 39
177. Direction-Finding Sensors  
Impart Tactical Vigilance .....Nov. p. 43

### TechNet International '98

178. Network-Centric Warfare  
Beckons Decision Makers .....May p. 53
179. Information Technologies Define  
Pentagon C<sup>4</sup> Budget .....May p. 59
180. Spectrum Battle Threatens to Sock  
Military With Large Conversion Bill .....May p. 64

### Telecommunications

181. A Web of Satellites Girding Earth  
to Provide the Ultimate Datalink .....Mar. p. 17
182. Baby Bells Grow Up, Learn  
Competitive World Survival .....Mar. p. 22
183. Government Efforts Confound  
Commercial Wireless Security .....Mar. p. 29
184. U.S. Satellite Competitiveness  
Hinges on Technology Pipeline .....Mar. p. 33
185. Commercial System Provides  
Military Telecommunications .....Mar. p. 37

### Viewpoint

186. It's Vulnerability, Not Threat—Stupid! ....Sept. p. 69

## AUTHOR

The numbers in the listing below refer to the index numbers from the title listing starting on page 107.

### A

**Ackerman, Robert K.** 1, 2, 3, 7, 15, 24, 51, 52, 53, 64, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 83, 84, 85, 92, 94, 100, 101, 102, 103, 107, 108, 115, 123, 125, 127, 130, 133, 135, 136, 138, 139, 142, 144, 145, 146, 148, 149, 151, 159, 161, 166, 167, 175, 179, 180, 181, 184, 185.

### B

**Brown, David A.** .....4, 5, 39, 40, 116, 129, 183.

### C

**Campen, Col. Alan D., USAF (Ret.)** ..6, 56, 61, 86, 186.

### D, E, F

### G

**Gregory, William H.** .....79.  
**Gruber, Lt. Col. David, USAF** .....176.

### H

**Hankins, Michelle** .....62.

### I, J

### K

**Kneidel, Thomas A.** .....42.

### L

**Lawlor, Maryann** 8, 12, 13, 14, 16, 18, 19, 21, 22, 25, 41, 82, 109, 110, 113, 114, 137, 141, 143, 147, 160, 162, 169, 170, 177, 182.

### M

**Mowery, Mark W.** .....111.

### N, O, P, Q

### R

**Reed, Fred V.** .....106, 121, 124, 131, 150, 163.  
**Robinson, Clarence A., Jr.** 9, 10, 11, 23, 26, 47, 49, 54, 65, 66, 67, 80, 81, 87, 88, 89, 90, 93, 95, 96, 97, 98, 99, 104, 117, 118, 119, 120, 126, 128, 132, 134, 153, 155, 156, 158, 164, 165, 168, 171, 178.  
**Robinson, Michael A.** .....17, 20, 48, 112, 152.

### S

**Sharp, Capt. Kenneth L., USAF** .....43.  
**Staff Report** .....55, 57, 58, 59, 60, 63.  
**Suberk, D.J.** .....105.

### T, U

### V

**Vane, Timothy D.** .....140.

### W

**Walsh, Edward J.** 44, 45, 46, 50, 91, 122, 154, 157, 172, 173, 174.  
**Wood, Lt. Gen. C. Norman, USAF (Ret.)** 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38.
